Frequently Asked Questions

- **How does our organization benefit by promoting Blastoff to our members/customers?** Your organization is paid commissions from purchases made by anyone that becomes part of your blastoff Network down through 10 levels. Most of your group will be joining Blastoff and building large networks anyway. You might as well be a part of that revenue stream.
- **How can we keep track of the people that are in our network?** This information is part of your Blastoff website. The members of your group that join directly with you are visible by name. The rest of the nine levels show the total members in each degree of separation.
- **How do we get paid?** You receive a monthly commission check directly from Blastoff Network, Inc. This is a commission of every purchase made in the first 10 levels of your network. This information is also available online.
- **Is there a limit to the size of my network?** No, your network will most likely grow into the millions. You are paid commissions on purchases within the first 10 levels. The more people that are personally introduced by you, the larger your network grows.
- **How can we promote this to our members/customers?** There are many different ways of promotion. Email and website links are the most effective. Flyers can also be used. Our representative will assist you in developing an effective marketing campaign.
- **What are the commissions that we are paid?** You receive \$1.00 on all wireless phone purchases and new digital phone service subscriptions. You receive \$0.50 on new internet subscriptions and \$2.00 on new satellite TV subscriptions. Additionally, you receive from .02% - 1.5% from purchases made through the Blastoff Mall, the percentages vary from store to store. Again, these commissions are paid out for 10 degrees of separation.
- **Is there significant income available through Blastoff?** If you had 5 million people in your viral network and 100,000 of them bought a cell phone that alone would generate \$100,000 in commissions. If this activity occurred annually that would be pretty good income, but if this occurred every month that would be GREAT income!
