

Top 10 reasons why you should do Blastoff!

1. A person can build a blastoff network of literally millions of people in a relatively short amount of time. The network builds virally and so there is very little you do once it gets started.
2. As a Pre-Paid Legal Associate you get paid on 20 levels of your Blastoff network. This is a VERY significant difference to the standard ten levels. If you have one million people on your 10th level and they all just signed up three that would be three million on your 11th level!
3. There is no cost to join Blastoff. It's **FREE!** This alone will make it grow very very fast! People like Free!
4. People will save money by using their Blastoff Mall. The retailers in the mall offer a 1% to 17% cash back incentive. Blastoff has negotiated some great deals on satellite, cellular, and travel.
5. The money is going to be amazing! If you have 3 million people in your network and only 100,000 of them just purchase a cell phone through their site, that would pay you \$100,000! Many millionaires will be produced through Blastoff. You can be one of them!
6. Building a network is simple and easy. Upload your contacts and the system sends out an invitation. You can hand out Blastoff cards to anyone else you meet.
7. You are on the ground floor! Rarely do you get a chance to be on the ground floor of something so big. The best opportunity exists when nobody has what you are offering! This is where most fortunes are created.
8. Blastoff is FUN! Many people will be attracted to Blastoff just because it is fun. The game panel, media panel, and social networking panels are great draws for millions!
9. The sky is the limit! You can sign up as many people as you want. There is no limit to the number of people you can personally sponsor.
10. You are just one person away from a Blastoff explosion! What if you enrolled just one person that brought in 100 people personally. If everyone just enrolled three people you would have over 100 MILLION people in your network and that is by just the 15th level! That's a lot of People!

Remember – Some Will – Some Won't – But they ALL will wish they had!
